| <b>Material</b>           | steel                                                        |
| <b>Instrument support</b> | non-marring slip-proof material                              |

Extremely stable folding stand for holding heavy bass saxophones. Thanks to a variety of adjustment options, the stand is suitable for a wide range of sizes and models. For example, the distance between the two rubberized, protective instrument supports can be selected from 2.755 to 34.645". The solid steel construction with the durable powder coating is easy to handle and therefore ideally suited for rehearsal room, studio or mobile use. An adjustable end cap also ensures a wobble-free stand.
