| <b>Material</b>             | steel                                                                                                                                                                                                                                                   |
| <b>Instrument support</b>   | non-marring slip-proof material                                                                                                                                                                                                                         |
| <b>Height adjustment</b>    | spring-loaded clamping knobs                                                                                                                                                                                                                            |

Stacker for the 3rd level of the keyboard stand »Omega« 18810. The stacker is easily and quickly positioned to the desired height by a spring-loaded clamping knob. In addition, depth and inclination adjust in various positions. This stacker can only be used in conjunction with the 18811 stacker. A rubberised stop provides the necessary safety and prevents the keyboard from slipping.
