Special features	also suitable for tablets in cases or protective covers; adjustable clamping jaws ensure unhindered access to the interfaces and the operating elements on the device; freely rotates 90°
Swivel	90 °
Type	black
Weight	3.7 lbs
Width	from 6.299 to 12.598"

The combination of the stand and the tablet PC Holder supports you on stage, at home or in the studio. The unique clamp mechanism holds all common Tablet PC models such as Pad mini, iPad, iPad Air, iPad Pro, Amazon Kindle, Amazon Fire, Samsung Galaxy Tab, Google Nexus, Asus Transformer or Microsoft Surface in size from 4.724 to 8.74" safe and secure. The holder is particularly suitable for the use of tablets with protective shields or cases. Thanks to a tension spring clamp a tablet can be attached and removed from the holder in a snap. The universal gripping device with integrated moss rubber guarantees a secure hold and eliminates unwanted vibration sounds. The additional adjustable bracket covered in felt and rubber caps provides additional safety when setting the tablet holder in the portrait format position, ensuring that the tablet PC does not dislodge from the holder even in the toughest of stage environments. The clamp grips are adjustable, ensuring that one can easily access the functions of the individual devices. The Tablet PC can be switched from the portrait to the landscape position and vice versa without slipping. The two-piece rod combination can be adjusted to any height between 25.59 and 59.055". The stand folds to a small and compact size for an easy transport.
