Material   steel     Max. load capacity*   110.231 lbs     Quality level   Starline     Rod combination   2-piece folding design     Special features   integrated shock absorber; mounting aid included; gradual height adjustment system: depending on the requirements, there are three ways to position the distance rod     Tube end(s)   diameter 1.378"	Height adjustment	spring-loaded bolt and locking screw
Max. load capacity*   110.231 lbs     Quality level   Starline     Rod combination   2-piece folding design     Special features   integrated shock absorber; mounting aid included; gradual height adjustment system: depending on the requirements, there are three ways to position the distance rod     Tube end(s)   diameter 1.378"	Leg construction	flat steel plate
Quality level Starline   Rod combination 2-piece folding design   Special features integrated shock absorber; mounting aid included; gradual height adjustment system: depending on the requirements, there are three ways to position the distance rod   Tube end(s) diameter 1.378"	Material	steel
Rod combination   2-piece folding design     Special features   integrated shock absorber; mounting aid included; gradual height adjustment system: depending on the requirements, there are three ways to position the distance rod     Tube end(s)   diameter 1.378"	Max. load capacity*	110.231 lbs
Special features   integrated shock absorber; mounting aid included; gradual height adjustment system: depending on the requirements, there are three ways to position the distance rod     Tube end(s)   diameter 1.378"	Quality level	Starline
Tube end(s) mounting aid included; gradual height adjustment system: depending on the requirements, there are three ways to position the distance rod diameter 1.378"	Rod combination	2-piece folding design
	Special features	mounting aid included; gradual height adjustment system: depending on the requirements, there are
Type black	Tube end(s)	diameter 1.378"
	Туре	black

Our strongest speaker stand with space-saving base plate. Thanks to the heavy, flat steel plate (21.653 x 21.653"), the stand is ideal for use where space is at a premium. Depending on requirements, there are three ways to position the pole. In addition to the centric and off-center position, the tube combination can also be mounted in the corner. A carrying handle, a cable management system and four stable feet are further useful features. The usable height is between 43.7 and 71.259" and can be reached in 4 steps of 6.889". The tried and tested K&M clamping screw and the robust locking bolt are used for fixing. The maximum centric load capacity with full extension is 110.231 lbs.
