

26776

Tiltable desktop monitor stand

Product variant

US-26776-000-55 - black

Data

Angle of inclination	0° to 12.5°
Base dimensions	9.84 x 8.27"
Bearing plate	9.06 x 9.84"
EAN	4016842117017
Gewicht	9.259 lbs
Height	from 13.78 to 17.72"
Height adjustment	locking screw and safety hook
Leg construction	flat steel plate
Material	steel
Max. load capacity	55.116 lbs
Quality level	Topline
Special features	4 rubber pads each for base and bearing plate provide for stability and noise filtration; bearing plate can be moved to optimize the center of gravity; stop bar prevents the monitor from slipping down
Type	black

Height-adjustable desktop stand with tilt support. The solid metal construction with the large support plate (9.055 x 9.842") is suitable for a wide range of monitors and other equipment in the same size range. The plate can be continuously tilted up to 12.5° and can be moved to optimise the centre of gravity. A stop bar ensures the necessary safety and prevents the monitor from slipping. Four felt-covered support pads provide decoupling under the base plate. The individual height can be adjusted in 4 steps between 13.78 and 17.716". In terms of load capacity, the stand can be centrally loaded up to 55.066 lbs. Rubber pads are included for secure, noise-insulating support of the monitors.
