EAN	4016842116874
Gewicht	4.519 lbs
Material	clear acrylic
Suitable for	3/8" thread
Type	black

Flexible and mobile protective shield for increased protection against infection. In the music sector, the protective shield is suitable for use in orchestras and choirs. The infinitely adjustable swivel joint with its 3/8" threaded connection can be combined with any microphone stand in no time. The transparent acrylic glass plate has a size of 23.622 x 23.622". Thanks to the proven König & Meyer prismatic connection, the plastic plate can be quickly and easily separated from the stand.
