

14038 Spindle Drummer's Throne

Product variant

US-14038-000-02 - black imitation leather

Data

EAN	4016842115518
Height	from 18.307 to 26.378"
Height adjustment	Rotary spindle
Leg construction	double-braced 3-leg base
Material	steel
Product Category	Topline
Seat	imitation leather, 16.929 x 15.354"
Type	black imitation leather
Weight	14.537 lbs

This drummer's throne is comfortable, convenient and solidly manufactured. The ergonomically shaped and elaborately upholstered seat with artificial leather cover balances superior posterior support and freedom of motion. The height adjustment is carried out by a robust rotary spindle. A two-piece plastic-lined clamp fixes the desired seat height. The continuous height adjustment ranges from 18.307 to 26.378". A solid clamp connects the seat with the rotating spindle. The upper part remains rotatable even in fixed state, without self-adjustment of the spindle. The three double-braced legs and large rubber feet guarantee a stable stand. The matching carrying case 14003 is optionally available.
