Easy-to-use desktop camera stand for mounting compact cameras, action cameras, web cams, mini-projectors and mobile recorders with a 1/4" connection thread. The ball joint allows the mounted equipment to be rotated 360° and fixed in any position. The tilt-angle is infinitely adjustable up to 90° and the load capacity is designed for equipment up to 2.204 lbs. When folded, the feet turn into a handle which additionally allows mobile use.
