Weight	2.269 lbs

Useful camera tripod for mounting compact cameras, action cameras, web cams, mini-projectors and mobile recorders with a 1/4" connection thread. The ball joint allows the mounted equipment to be rotated 360° and fixed in any position. The tilt-angle is infinitely adjustable up to 90° and the load capacity is designed for equipment up to 2.204 lbs. The height can be freely adjusted from 21.85 to 53.346" via two extensions. For transport, the tripod folds compactly to save space.
